

Cordless Lamp Charging Rack NWCR-36B

Description

Cordless Lamp Charging Rack NWCR-36B

The NWCR-36/B is a double sided charger rack with 36 charging ports, 18 per side. Each lamp charges independently with an LED per charge port to indicate charging or fully charged.

Faster charging –

After applying the intelligent fast charging technology, the time to fully charge the lamp is much less than before. For WISDOM Lamp 3D, it takes only 3 hours to get full charge; while for Lamp 3A, about 5 hours is enough.

Higher efficiency, less heat –

Compared with the past generations of the chargers, the charger PCB of NWCR-12B is improved to be more efficient. Even charged in full power, it generates only a little heat.

Wide range voltage –

Voltage range of the AC power supply is: 100~240V

The wide range makes the charger applicable to specific voltage standard in all countries.

Environmentally-friendly –

The charging rack is designed in accordance with the Restriction of Hazardous Substances Directive (RoHS). RoHS standard is strictly followed in the whole process, from choosing the material to designing the production technic.

Technical specifications –

Features	NWCR-36B Specifications
AC input	100~240 V \pm 10%, 8.1 A, 50~60 Hz
DC output voltage	4.80 V/6.8V
DC output current	2000 mA
Size	93.1 × 30 × 106 cm; 36.7 x 11.8 x 41.7 in

Weight	62 kg; 136.69 lb
Model	WISE LITE2(4.8V),WISDOM LAMP3/4(4.8V),WISDOM LAMP6(6.8V)
